

PrimaryGeneratorAction  
::GeneratePrimaries

```
graph LR; A[PrimaryGeneratorAction::GeneratePrimaries] --> B[CRYGenerator::genEvent]; A --> C[CRYUtils::partName];
```

The diagram illustrates a call graph where the function `PrimaryGeneratorAction::GeneratePrimaries` (represented in a grey box) calls two other functions: `CRYGenerator::genEvent` and `CRYUtils::partName` (both in white boxes). Two blue arrows originate from the right side of the grey box, pointing to the left side of each of the two white boxes.

CRYGenerator::genEvent

CRYUtils::partName
