

source/include/CRYPdf.h

```
graph TD; A[source/include/CRYPdf.h] --> B[iostream]; A --> C[string]; A --> D[vector];
```

A diagram illustrating the dependencies of the file `source/include/CRYPdf.h`. The top box, labeled `source/include/CRYPdf.h`, has three arrows pointing down to three separate boxes below it. These boxes are labeled `iostream`, `string`, and `vector`, indicating that `CRYPdf.h` includes these three standard C++ libraries.

iostream

string

vector
