

Json::Reader::readString

```
graph LR; A[Json::Reader::readString] --> B[Json::Reader::getNextChar]
```

A diagram showing a call from the `Json::Reader::readString` method to the `Json::Reader::getNextChar` method. The `readString` box is shaded gray, and the `getNextChar` box is white. A blue arrow points from the right side of the `readString` box to the left side of the `getNextChar` box.

Json::Reader::getNextChar
